

Australian Fife Canary

by Peter Ailwood.

The Likes and Dislikes of the Canary.

The following is not a definitive list, but an attempt to bring together the collective knowledge of a lot of Canary owners & breeders.

It has been written specifically for a new owner of a Canary, being kept as a pet.

Likes	Dislikes
<ul style="list-style-type: none">✓ A clean hygienic cage and environment.✓ Space to fly.✓ Clean water.✓ Sunlight and fresh clean air.✓ A variety of different seeds.✓ Greens & Weeds – Fruit & Veg.✓ Shell Grit.✓ Toe nails trimmed if too long.✓ Familiar surroundings.✓ Music.✓ A friend / companion, human or bird.✓ A bath as often as possible (weekly).✓ Perches that are clean and of various sizes.✓ Perches that sway and move.	<ul style="list-style-type: none">✗ A dirty cage.✗ A small confined cage, which provides no ability to fly and exercise.✗ Dirty water.✗ Insect spray, gas fumes, cigarette smoke, cooking fumes.✗ Excessive heat.✗ Full sun without shade.✗ Drafts.✗ Plain Canary Seed without variety.✗ Dirty or contaminated seed and food.✗ Rodents or Mice.✗ Cats.✗ Barking dogs.✗ Excessive noise.✗ Shocks & vibrations.✗ Savage birds in the same cage.✗ Savage wild birds (Butcher Bird etc).

This page makes a simple hand-out when selling birds to a new customer, particularly those who are buying a bird for the first time, and who need some help and understanding of the basic requirements of their new pet.
